

Halloween word bingo

24 different cards | A4 | Two cards per sheet

Print pages 2-13 for the players, cut each sheet in half, and give each person one card. Print at actual size on A4; on US Letter, choose Fit to page. You will need pens or counters.

1. Choose the level of spooky

Read the word list and replace any words that do not suit your group. These cards use text rather than pictures. Pick a 3 × 3 grid for a shorter round or for children who need help reading.

2. Prepare the caller slips

Print the cards and include the item list. Cut that list into individual slips, fold them, and place them in a bowl. Give each player a card and a pencil or counters.

3. Draw and mark

Draw one slip at a time, read it aloud, and set it aside. Players mark the word if they have it. The first row, column, or diagonal wins; check the winning words against the slips already called.

The last page contains every word used in this pack. Cut the words into slips, fold them and draw from a bowl without replacement. Keep the drawn slips to check a winning card.

Need different prompts or more cards? Edit this game online:
bingocardgenerator.site/templates/halloween-bingo

Free to print and share with your class or group. These cards use words, not pictures; check that the reading level suits your players.
